

Parent Participation Form

Dear Parents,

We know that there are many parents that would like to help out. The teachers would really appreciate knowing who you are. Below is a list of things that a teacher might need help on. Would you please fill out any areas where you would like to help. **This is not mandatory!** We do know that some moms and dads are not available to help out at this time and that is perfectly fine. This is strictly voluntary. This lets the teachers know which parents are available and interested in helping. Thanks for your support.

Marjorie James

Parent's name _____

I would be able to help with the following: Please check all choices.
